

Name _____

Doctor _____

Medication _____

Prescribed dose _____

BP monitor (make/model) _____

Cuff arm used (L / R) _____

The plan

Week	Medication	Dose	From (Fri)	To (Thu)
Week 1	Full prescribed dose	100%	___ / ___ / ____	___ / ___ / ____
Week 2	Half prescribed dose	50%	___ / ___ / ____	___ / ___ / ____
Week 3	No medication	0%	___ / ___ / ____	___ / ___ / ____

Reading schedule

Friday, Saturday, Sunday and Wednesday: multiple readings — morning, midday, afternoon and evening, plus a spare row for any extra reading.

Monday, Tuesday and Thursday: two readings — morning and evening.

Each week runs Friday to Thursday, so every week starts on a multi-reading day. Tick the medication box each day and note the time you took it.

For consistent, accurate readings

- Avoid caffeine, smoking and exercise for 30 minutes beforehand, and empty your bladder.
- Sit quietly for 5 minutes with your back supported and feet flat on the floor.
- Rest your arm on a table so the cuff sits at heart level, on bare skin.
- Don't talk while the monitor is measuring.
- Use the same arm every time, and take morning readings before breakfast and medication.
- Write the number exactly as shown — no rounding. Record anything unusual in Notes (poor sleep, stress, illness, missed dose, dizziness).

Entering into your spreadsheet

Each row on the weekly pages is one reading. Suggested spreadsheet columns, in the same order as the journal: Date | Week | Dose % | Time of day | Time | Systolic | Diastolic | Pulse | Arm | Notes. Keeping 'Time of day' (Morning / Midday / Afternoon / Evening) lets you chart morning vs evening readings separately.

Safety

Reduce or stop blood pressure medication only as agreed with your doctor. Contact your doctor if readings climb well above your usual range or you feel unwell.

Call 000 for chest pain, a severe headache, shortness of breath, sudden weakness, confusion or vision changes.

Week starting (Fri) _____

Dose taken each day _____

Day / Date	Medication	Time of day	Time	Systolic (top)	Diastolic (bottom)	Pulse (bpm)	Arm L / R	Notes
